OPEN UNIVERSITY PRESS, United Kingdom, 2009. Mixed media product. Book Condition: New. 244 x 188 mm. Language: English . Brand New Book. This is an excellent book for anyone starting out on the Common Foundation year of their Nursing Degree, and as a reference to those further into their degree, on placement, or newly qualified. It covers everything from communication skills to pressure ulcers, and includes all four Nursing branches: Child, Adult, Mental Health and Learning Disability. The book is accompanied by an excellent CD-ROM that includes step-by-step Case Studies, resources for the book's chapters, and skill-set video demos with self-assessment. The DVD applies the theory to practice in a style that is easy to understand and follow. It will prove invaluable in preparation for OSCEs and for refreshing skills that may not have been used for a while. Conor Hamilton, Student Nurse, Queens University Belfast, UK An excellent foundation text for first year pre-registration nurses. The accompanying DVD encourages application of the theory and helps consolidate learning. Janine Lee, Leeds Metropolitan University, UK This book provides an excellent alternative to other Clinical Skills books. The most obvious and most useful difference is the addition of a CD Rom. The book itself is clearly laid out from the beginning, with the table of contents detailing all the essential areas of nursing that are often forgotten. It is often assumed that nursing students already know the basics so the inclusion of how to bed bath a patient or how to feed a patient was welcomed. While primarily aimed at those following the common foundation program (1st year) it has also been of great use to myself during my 3rd year. Jackie Sheridan, Student Nurse, Glasgow Caledonian University, UK I found this book useful for a backup from clinical skills sessions...
